

# (GENERAL REQUIREMENTS)

## Westalee Beginners Class – Quilting rulers and templates.

In this class, you will learn about tension for free motion quilting, including adjusting bobbin tension. Most of all you learn how to use the Westalee quilting rulers and templates. How to use reference points on your quilts to correspond with your template markings, to create a quilting design.

During this class, we will only be working on practice pieces which you should keep as your reference. I will also provide you with some written information on Needles, threads, trouble shooting and space for you to write your own notes on each template that we use from the Sampler set.

This class is a pre-requisite for any of my future Westalee classes, including BOM.

## Items required for Westalee Ruler Class

- Sewing Machine – **IN GOOD WORKING ORDER AND ACCOMPANIED BY THE INSTRUCTION MANUAL.** Also have some knowledge on how **your** machine works
