DreamCreator VQ2400 V-Series Sewing and Quilting Machine

Brother's most affordable V-Series machine yet. It has been specially made for those who dream of making incredible quilts and fashion-forward creations.

- 561 stitches including 14 one-step buttonhole styles and 5 sewing fonts
- Large workspace – 11 1/4" needle to arm
- Muvit digital dual feed foot
- Ultra bright LED lighting
- Large 7" LCD touch screen display
- Up to 1,050 stitches per minute
- Fully automatic needle threading and built-in scissors

DreamCreator VQ2400 is Brother's most affordable V-Series machine yet

You will love working on our large - 11 1/4" needle to arm workspace, and the Muvit digital dual feed will mesmerize you – a motor driven foot that is a great benefit when working with thin or layered fabrics. If this is not enough, the VQ2400 also has other exciting features like 561 stitches including 14 one-step buttonhole styles and 5 sewing fonts, ultra bright LED lighting, ICAPS (Continuous Automatic Pressure System) and Pivot function. With all these great features packed into our most affordable V-Series machine yet, why not start creating today?

Ultra Bright LED Lighting

This ultra bright feature lighting gives a crisp bright natural light, so you can see colours and stitch details, no matter what your lighting conditions are. The lighting brightness is fully adjustable so you can set it at a level to suit you and your environment. 50% brighter than most Brother machines.

ICAPS (Continuous Automatic Pressure System)

The ICAPS feature helps ensure consistent stitch length on all fabric thicknesses by keeping the presser foot pressure consistent regardless of fabric thickness.

Pivot function

When pivot function is selected, the machine stops with the needle lowered (in the fabric) and the presser foot is automatically raised to the height you have set. A must have for all quilters and sewers!

Fully Automatic Needle Threading

Simply glide your thread through the marked path and press the button for quick and easy needle threading.

Eleven Inch Chassis

The largest needle to arm distance ever from Brother at 11 1/4". Welcome to the world of quilting and sewing with 56 square inches of workspace – over 10% more than current models.

Large 7" LCD Touch Screen Display

See up to 260,000 colors with little or no color shifting. View on-screen tutorials, and control the machine with the large, intuitive on-screen icons.

Velocity up to 1,050 SPM

The fastest Brother series ever!

11 inches wide

5 inches high

561 Stitches including 5 Sewing Fonts

A wide range of stitches and sewing fonts for all your sewing and quilting projects, 561 stitches including 14 one-step buttonhole styles and 5 sewing fonts.

USB ports

1 host/1 slave. Connect to your computer to import and export designs or perform machine updates. Use the second port to import and export designs from your USB memory stick.

Optional Multi-Function Foot Controller

Use this two pedal foot controller to control up to three different sewing functions, all with the press of your foot. Allows a wide variety of functions while holding your project with two hands.

Muvit Digital Dual Feed

This included digitally-controlled direct motor-driven accessory foot is designed for difficult projects which require special handling - so you can rest assured that your ability to move it smoothly is just a touch away.

Optional Wide Extension Table

Expand the sewing area with this optional extra-large extension table. Ideal for large quilting and sewing projects.
